WATT, SAVE  
A LOT**

**Venue:-** Government school, Marathahalli

<b>CO-ORDINATOR</b>	<b>CONVENER</b>	<b>PRESIDENT</b>
Mr. Vinod Kumar S	Dr. Mahesh M HOD-EEE	Bindhu v

## **INTRODUCTION & ACTIVITIES:**

The Club individuals of the Green Energy Club, along with the volunteers visited the Government Primary School, Balaji Layout, Marathahalli, Bengaluru 560037.

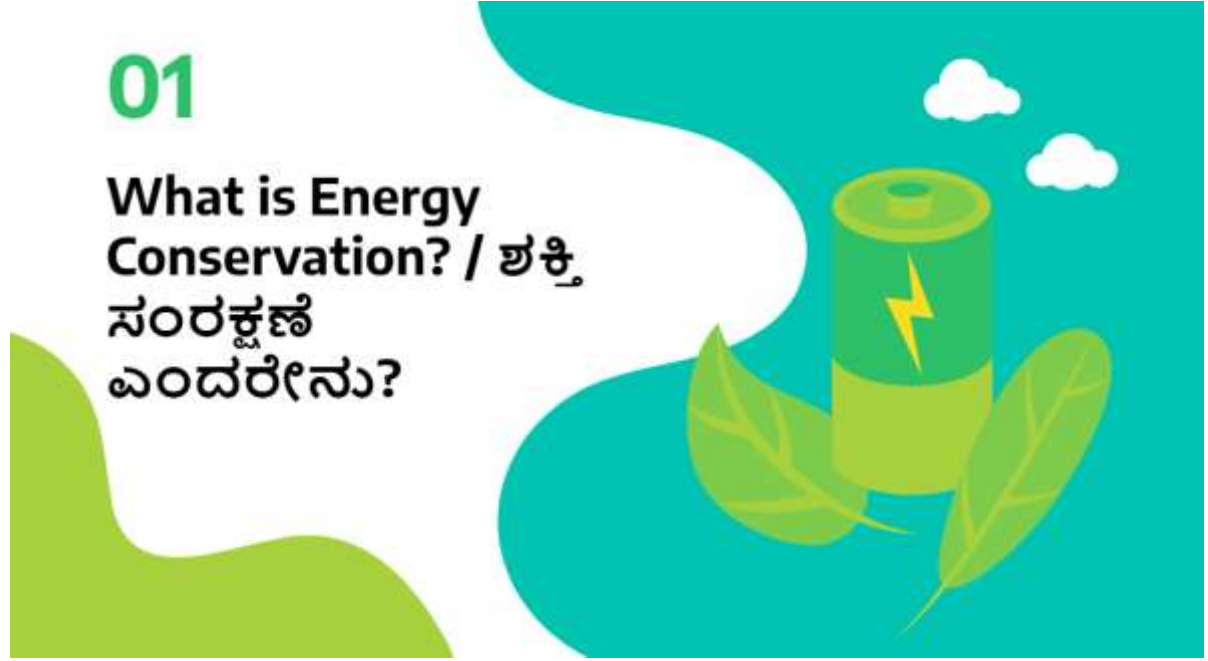

The event began at 10:00 A.M and ended at 12:30 P.M. The group was divided into seven groups, and each group was connected with classes separately.

We prepared a presentation on Energy Conservation for the students that detailed how to conserve energy sustainably. This presentation included both English and Kannada

languages for better understanding. The following are a few slides from the presentation.

This was an interactive session where the students were asked to observe pictures like solar panels and name them. Each of the students were very energetic and interactive throughout the session.

The school students were educated with technical animated video that helped in understanding conservation of energy.

## **CONCLUSION:**

At the end, a stationary kit which included a pencil, scale, eraser and sharpener was distributed to all the students along with a few chocolates. Overall, it was a learning experience for the students of the school as well as for those volunteering. The event was concluded by a vote of thanks by the president of Green Energy Club, Bindhu V. This event was organized successfully with the support of our faculty coordinators, Mr. Vinod Kumar and Ms.M.. Karthika. And a Special thanks to our

beloved Head of the Department Dr. Mahesh M for his continuous encouragement towards this event

**THANK YOU**
