GUEST TALK ON "SMART DRIVES USED IN MINING FIELD"

FEEDBACK RESPONSES

Sno	Name of the Student	University Register Number(US N)	YEAR & SECTION	How was the interaction with the speakers?	How was the content presented in the session?	How helpful was the content presented to apply basics of engineering and sciences to find a solution to complex engineering problems?	How helpful was the content presented in designing solutions for complex engineering problems?	How helpful was the content presented for analysis and interpretation of data, and synthesis of information to provide valid conclusions?	How helpful was the content presented to understand the impact of professional engineering solutions in environmental contexts?	How helpful was the content presented to develop and support systems based on renewable and sustainable energy sources?	How helpful was the content presented to recognize the need for continuous learning to adapt to the change in technology trends?	How helpful was the content presented to manage project and finance related to it?	How helpful was the content presented to communicate effectively on complex engineering activities with the engineering community and with society at large?	How helpful was the content presented to function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings?	How helpful was the content presented to access societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to professional engineering practice?	How helpful was the content presented to apply appropriate techniques, resources and modern engineering and IT tools including prediction and modeling to complex engineering activities?	Was the session useful for improving skill sets and knowledge on the same?	Please input your suggestions on what events you'd like us to conduct in the future?
