

IIC Activity Details

Program Type	-	Seminar
Program/Activity Name	-	Seminar on “Intellectual Property Rights (IPR): Protect your creativity with patent”.
Program Theme	-	R&D and Innovation / Design Thinking and Critical Thinking
Start Date	-	25/05/2022
End Date	-	25/05/2022
Duration of The Activity (mins)	-	120 MINS
Number of Student Participants	-	59
Number of Faculty Participants	-	03
Number of External Participants	-	03
Expenditure if any	-	NIL

Mode of Session Delivery – Online/Offline- Offline/Online (Blended)

Remarks (100 Words) - NHCE Institutions Innovation Council and the Department of Electrical and Electronics Engineering Organized a Seminar on “Intellectual Property Rights (IPR): Protect your creativity with patent” on 25th May 2022. The offline seminar is delivered by the patent Expert in the Third year and Engineering Students and Faculty Members. Around 56 Students participated in the Program. The Seminar speaker is Dr. Agalya V, working as a professor and Associate Head of R&D. Also she worked in five different institutes and has acted in different roles like Head of the Department and innovation & Entrepreneurship Head. She has completed BE from Periyar University, M.E from Anna University, and received Ph.D. in Electrical Engineering from Anna University. She has around nineteen years of teaching and research experience. Her areas of specialization include Power Electronics, VLSI Design, and Biomedical and Control systems. She has published 21 research papers in Sci & Scopus indexed journals. She has two Indian Granted patents, 15 Indian patents, and designs filed.

The session was hosted by Rachna Palli of the 6th Semester and started with a Welcome Note to our speaker, to all the students of the 4th and 6th semesters students, and to the faculty of the electrical and electronics department. The seminar was preceded by a short talk by the HOD of the electrical and electronics department. In his talk, he emphasized the importance of intellectual property and how to go about enhancing it. After which DR. V AGALYA took the stage and started with the lecture, she made it so easy to understand the lecture to the target audience

by making it an interactive session with the audience everyone was so actively interested in the program. She introduced the basics by highlighting the importance of Intellectual Property rights (IPR) among participants with special reference to patenting. Made it understand the audience by assigning the tasks. She then provided a vast knowledge about patent-related terminologies and an understanding of The patentability of an invention fulfilling criteria. learning from scratch about patent drafting, formulation of claims, Filing of Patent Application or Priority Application, Publication of Application, Opposition of Patent, Request for Examination, and Grant of Patent. The seminar moved on to creating awareness about what can be patented and what cannot be patented. The audience was introduced to patent filing offices in India. After delivering her lecture she encouraged students to shoot questions-.the audience witnessed a lot of questions being shoot to Dr . V AGALYA and she was happy to answer them all.

The objective of the Activity (100 words) - In today's globally competitive environment, intellectual property has placed itself on a pedestal and is becoming increasingly important. When an individual has an idea that they want to protect from being used by others without their permission, it is best to seek legal protection of that intellectual property. By seeking property rights over your intellectual property, a property is a creation of the mind, such as an invention, symbol, or even a name. You establish rightful ownership and prevent the unlawful use of your property. What's more, establishing intellectual property rights can help to stimulate further innovation. This is a good thing but are we doing it right? To focus on the awareness regarding Intellectual property rights a seminar was organized

Benefits in terms of learning/skill/knowledge obtained (150 Words) - It was a very informative and interactive session where students came to know about the rightful owner and preventing the unlawful use of your property. The event ended with an honorarium to the Speaker and a vote of thanks. Feedback was taken in order to analyze the effectiveness of this seminar. It was found that the seminar was an excellent event and found the information imparted to them relevant. None of the students expressed their dissatisfaction with the event.

Faculty IIC Coordinator

- Dr. Singaravelan A

Student IIC Coordinator

- Ms. Rachna Palli and Mr. Faoz Firoz
